*What coastal sage scrub teaches
us about conserving coastal
California landscapes amid
climate change*

COME ENJOY A MORNING WALK AT SEDGWICK RESERVE WITH EARTH SCIENTIST, DR. MARC MAYES AND COLLEAGUES AS THEY SHOW YOU SOME OF THE VISTAS AND RESEARCH OF OUR BEAUTIFUL RESERVE. REGISTRATION IS REQUIRED.

The experience will include a drone flight over research areas at Sedgwick! The walk is less than one mile and includes one 70 foot hill. Close-toed walking shoes are required. This small program will take place entirely outdoors.

A link to a zoom lecture on coastal sage scrub is included with registration!
